OFFICE OF
PESTICIDES AND TOXIC SUBSTANCES

MEMORANDUM

DATE:

SUBJECT:

PP#2F2588/2H5326 Chlorpyrifos on sunflowers

Amendment of 3/19/82

FROM:

K. H. Arne, Ph.D., Chemist KH, Avul

Residue Chemistry Branch

Hazard Evaluation Division, (TS-769)

THRU:

Charles L. Trichilo, Chief

Residue Chemist Branch

Hazard Evaluation Division (TS-769)

TO:

Jay Ellenberger, PM No. 12,

Registration Division (TS-767)

and

Toxicology Branch

Hazard Evaluation Division (TS-769)

In our review of this petition (memo of 3/5/82, K. Arne) we recommended for the proposed tolerance on sunflower hulls (0.5 ppm) but not for the proposed tolerance on sunflower seeds (0.2 ppm). For a favorable recommendation we required a revised Section F in which a tolerance of 0.25 ppm was proposed for sunflower seeds. The requested revision is submitted with this amendment. This deficiency is resolved.

Recommendation

Toxicology considerations permitting we recommend for the tolerances proposed for chlorpyrifos on sunflower seeds (0.25 ppm) and sunflower hulls (0.5 ppm).
